Dr Jan Sigvartsen has two books published by Bloomsbury (the publishers of Harry Potter), plus nearly 60 other publications) and will teach you how to get a historic story, or your story down and publish it. Students will be encouraged and assisted in publishing their best work. For ages 10-20.
2. Using story prompts from our local community's past, students will learn how to work a newspaper article or historic chapter it into an entertaining narrative.
3. We learn from each other, so students will read their stories to one another to obtain ideas, learn from one another, and improve their confidence and public speaking skills.
4. We want to encourage students to think critically about the past, apply modern wisdom to an old story, and inject humor and drama into their writing.

SYLLABUS/OUTLINE: Weekly approximate breakdown of activities:

Week 1 – 2 hours

Orientation: at the Tarragindi Archaeology Dig site: 6161 Pheasant Court, Berrien Springs, MI 49103.

You will be required to sign a waiver and choose if you want to participate in photographs or not during this program. We will go over expectations, requirements and goals. We will talk about how Dr Jan's programs endeavor to use local history and archaeology as a catalyst to build belonging and a sense of place, and they both can have very advantageous effects on your school work, your potential for success, and your future career.

Week 2 – 2 hours

Local History Tour: This semester we are going to Fernwood Botanical Gardens for our local history tour – our treat for you and one parent/guardian, if they want to join us. Siblings not registered in the program or additional parents/grandparents/guardians are welcome, but are responsible for paying for their own discounted entry fee.

Fernwood Botanical Gardens is located at: 13988 Range Line Rd, Niles, MI 49120. Park in the carpark, wait on the patio outside for Dr Jan so we can go in together.

Did you know that a Native American trail went right through this garden and its landscape in the St Joseph river valley makes it almost perfect for settlement both now and 10,000 years ago. We will walk around this historic garden and hear stories of how this beautiful space came about in our community, and over the past 200 years was developed by different people.

STUDENT ASSESSMENT - In addition to the 2 items below, what will be used to evaluate student progress and/or end of semester pass/fail status?

- 1) Students agree to attend at least 80% of class sessions/lessons offered. Attendance is kept online and tracked by Partnership staff. Unexcused absences resulting in failure to meet 80% threshold may result in program discontinuation.
- 2) The Partnership Student Assessment is filled out by the teacher and turned in to Partnership staff. The rubric is found on the teacher's online attendance sheet. Failing marks for lack of participation, behavior issues, excessive absences, etc. may result in program discontinuation.

- 3) Other class-specific assessment: Engagement in the program, follow through with instruction, and asking good questions.
